

The Economic Department of the French Embassy is going to host a group of French companies /organisations during the European Offshore Wind 2009 Conference and Exhibition on 14th, 15th and 16th September 2009. P

Our aim: to arrange B2B meetings between French suppliers/clusters and the main buyers of leading companies/actors within the offshore wind industry. This is free of charge for Danish companies.

Who is going to attend:

- BENOIT JOLIVET (bar-turning and NC machining)
- FERRY CAPITAIN (manufacturer of casted part for companies involved in wind industry)
- FIVES STEIN (manufacturer of assemblies and sub-assemblies in mechanical engineering and fabricated/welded steel construction)
- Groupe BAUDIN CHATEAUNEUF (construction and renovation of specialized civil works, steel structures, mechanical engineering, civil engineering and General Contracting – transportation of tower sections)
- MANOIR INDUSTRIES (Supplier of highly engineered cast and forged metal components and sub-assemblies)
- MECACHROME SAS (design, machining and assembly of parts, assemblies and subassemblies for the aircraft/space and automotive industries)
- SAS Delta Box (manufacturer of Aircraft Warning Lights. These products are dedicated to signalize all the kind of obstacles to air navigation (towers, building, wind turbines, cranes...))
- STROMAG FRANCE (industrial disc brakes and power transmission components)
- SOCIETE NOUVELLE FONDERIES ET ATELIERS SALIN (Foundry and cast iron manufacturer)
- VIAMÉCA is a cluster whose role is to create new relationships between the players in the mechanical engineering sector
